## NATIONAL GUARDS

Enthusiastic Meeting Held Under The Auspices of The Wauseon Booster's Club Monday Evening - Wauseon Company to Be Organized - One Hundred and Twenty-one Present.

Following the action taken at their Annual Meeting on Monday evening June 12th to endorse and operate in the movement to secure a company of National Guards, for Wauseon, the Wauseon Booster's Club through their co-operating committee sent out invitations to two hundred and twenty-one young men in Wauseon to be the guests of the Club at a meeting last Monday evening at the Wauseon Temple of Pythian Sisters. The hall was beautifully decorated in the national colors and a fine large flag was hung at the back of the stage. An orchestra furnished splendid music. One hundred and twenty-one persons were seated about the tastefully arranged tables. At the conclusion of the report, President F. R. Guilford of the Booster's Club welcomed the guests in behalf of the Club and announced that the committee had been disappointed by the inability of the speaker of the evening, Captain Harry Kirkland, to be present; he being unavoidably detained in Toledo on account of the order to mobilize the Ohio National Guards. Mr. J. P. Outcalt was introduced and very clearly and tersely presented the proposition of organizing a company of National Guards in Wauseon. The speaker stated that at the present time it is to be the signatures of those who will pledge themselves to enlist in a Wauseon company, to petition addressed to Governor Wiley. When there is an opening as there has been recently and as there is quite likely to be again very soon the Governor may authorize the organization of a company here. The term of first enlistment is for three years, all equipment uniforms and etc. are furnished the men, there is no cost whatever to the members of the company except the time given for drill and training and after July 1st, all men and officers will receive during peace times one fourth the pay of men and officers in the regular army service. In case of actual service the pay will be the same as for the regular army. Members of the company elect their own officers for commission as Captain and First and Second Lieutenants. There has been and is no attempt to make up a state in the formation of a company here, the matter of selection of officers must be left entirely to the majority vote of the members of the company. The National Guards appeal to young American men as affording an opportunity of giving practical and tangible expression to the real patriotism they feel and there is nothing that the young men can do that is more commendable and honorable than to register himself as willing to take the training and discipline that will in case of emergency to defend the flag of his country and the institutions and principles for which it stands. The very fact that the citizens of this country are willing and ready to defend any encroachments upon the principles, institutions or territory of this country, when known to the world is in itself the strongest kind of insurance against trouble of a warlike character.

There are many benefits that accrue to the individual members of the National Guards. Many who are fitted to speak with authority believe that every young man should have a military training. Certain it is that such training gives invaluable benefits to each person who takes it in physical development and self control. President Guilford called upon Chas. T. Stahl, F. E. Kenyon and Prof. C. D. Perry each of whom responded in stirring talks endorsing the movement to secure a company of Guards in Wauseon and encouraging young men present to pledge themselves to join such a company. Some twenty-two names were secured to the petition and aside from the primary purpose of the meeting it was worth all that many have been as affording opportunity for the men of the community to get together and get acquainted. The Booster's Club certainly are royal good hosts and lose no opportunity of manifesting their good will and desire to co-operate in every worthy movement. The movement to secure a company of National Guards and eventually an Army for Wauseon should not and doubtless will not cease with the meeting of last Monday evening. The full number of at least fifty names

should be secured to the petition and filed with the Governor and when the opportunity for the placing of a company occurs we understand it is likely to occur very soon Wauseon will stand a good chance of securing such company.

WASHINGTON ITEMS.

## FULTON'S VALUATION

Value of Personal Property in Fulton County as Shown by Assessor's Returns Now Being Compiled in Auditor's Office.

The Auditor's office is busy these days compiling the returns of the Assessor of the county made this Spring. The work is not yet completed but enough statistics are ready to show the comparative loss or gain in the valuation of the personal property of the citizens of the county for 1916. Next week we shall be able to give the complete report of the value of personal property held by citizens of the county and listed for taxation, including the value of property held by banks and incorporated companies within the county which is not included in the figures given here-with:

Royalton township's total this year is \$183,120, last year was \$184,440, a gain of \$867.00.

Chesterfield this year returns \$201,300 last year it was \$180,600, a gain of \$20,700.

Gorham shows a loss of \$5,100. The Assessor's returns for the year total \$401,860 while last year the total was \$406,960.

Dover, this year returns \$209,250 last year \$205,060 a gain of \$4,190.

Pike, this year \$234,890, last year \$220,930, a gain of \$13,960.

Swan Creek, this year, \$282,720 last year \$249,430, a gain of \$33,290.

German, this year \$779,390 last year \$743,020, a gain of \$36,370.

Archbold Village, this year \$202,020 last year \$201,650, a gain of \$370.

Next Sunday this year \$369,540, last year \$325,010, a gain of \$38,530.

Fayette Village, this year \$326,010, last year \$282,590, a gain of \$33,420.

Lyons Villages, this year, \$82,270, last year \$76,310, a gain of \$5,960.

Metamora Village this year \$248,280, last year \$249,280, a loss according to the Assessor's returns of \$1,000.

During the year a hardware company in this village was incorporated and this valuation will be added by the auditor in the final figures which will more than likely transform this loss to a gain.

The five townships and five villages for which the figures are given in the foregoing show a net gain of \$101,000. During the year a hardware company in this village was incorporated and this valuation will be added by the auditor in the final figures which will more than likely transform this loss to a gain.

The standard of enlistment for the United States Marine Corps requires the applicant to have at least twenty sound teeth, with four opposed molars and four opposed incisors. Properly filled teeth are counted as sound.

For defective teeth will be saved to the "First Line of Defense" by the patriotic members of the Dentists' League of America.

Dr. J. W. Beach, of Buffalo, is chairman of the registration committee.

WILL SHIP SCRATCH?

Mrs. Marrie Chapman Catt seems to be disappointed in the "Ship to the Holy Land" closed and the "Blue Ship" had out distanced the "Red Ship". The crew of the "Red Ship" entered the water and the entire Sunday School on Thursday evening, ice cream and cake were served and a social hour enjoyed.

Next Sunday this Sunday School will start on an "Automobile Tour to the Golden Gate" each class will have its own special make of "auto" and there will be a contest to see which class will reach the "Coast" first and in best shape.

There were just thirty-six berries in the total valuation and the berries were a luscious fill flavored specimen. If any local grower can beat this record speak up and let us know about it.

## A WARM GAME.

The ball game at Athletic Park last Sunday afternoon was far and away the best of the season; the full box score is given herewith. Delta played a good game but were out classed by the Wauseon team while Delta's pitcher struck out six men, Shultz in the pitcher's box for Wauseon struck out nineteen men. Delta failed to get a hit until the eighth inning. The best hit of the game was the two base hit by Parker in the seventh inning, which was followed in the next few minutes by stealing third and home.

Williams made a play that raised the fans from their feet when he threw from left field catching his man at the home plate; Fraley was there to put the finishing touches on the play by getting the man by a matter of inches. The score was 1 to 0 in favor of Wauseon. Delta scoring 2 hits and 2 errors. Wauseon making 1 run, 3 hits and 1 error.

GARDEN NOTES.

Asparagus cutting should be discontinued during the latter part of June. Begin to feed the plantation as soon as cutting stops. Thoroughly so of manure and apply a mulch of manure and nitrate of soda at the rate of 200 pounds per acre or if the field is not too old and the roots too near the surface plow shallow double rows between the rows throwing the soil over the crowns; then apply a mulch in the furrows and cross harrow. Poultry make the best mulch.

Make successive plantings of sweet corn, beans, beets, carrots and lettuce during the month. Celery plants should go into the field the latter part of this month or early in July. Watch the cabbage plants for worms. Use fresh white hellebore at the rate of 1 ounce to 3 gallons of water as a spray when they appear. Apply borax mixture to cabbages, cucumbers, melons and potatoes at frequent intervals, at least every 10 days. For the potato beetle on potatoes, egg plant or tomatoes use arsenate of lead at the rate of 3 pounds to 50 gallons of water as a spray and apply thoroughly. The arsenate may be used with borax and at the same rate as for clean water. If troubled with squash vine borer in squashes and pumpkins, apply tobacco dust liberally at frequent intervals close about the stems and encourage the rooting of the vines along the stems by drawing moist soil up over them.
